Address: 79 Stephen st
CAMP HILL 4152

Interests

- Continuing to expand my software development skill base
- Future technological advances specifically though software neural net learning and mechanical automation
- Travel and new experiences
- Healthy/ Sustainable Lifestyle
- Logic Puzzles/ Riddles
- Surfing, Mountain Climbing, Snowboarding, Hiking, Camping
- Morality questions that arise with our improved technology

Education

PAST:

- **University of Queensland** - Jan/2016 - Jul/2017
 - Dual Bachelor of Software Engineering/ Mathematics (Discontinued study due to travel and the realisation that self study might be a much more effective method of learning for me)
- **Khan Academy** - May/2021- Aug/2021
Various lectures: mainly focusing on conceptual understanding of algorithms and software specific problem solving
- **HarvardX University** - Jun/2021 - Present
 - CS50x Introduction to Computer Science

CURRENTLY STUDYING:

- **HarvardX University** - Jun/2021 - Present
 - CS50x - Web Programming with Python and Javascript
 - CS50x - Mobile App Development with React Native
 - CS50x - Introduction to Artificial Intelligence with Python

Work Experience

Private Tutoring
(Jun/2015 - Dec/2017)
High School Maths, Physics and Engineering

Hembrows Electrical
(Jun/2019- Oct/2019)
Assisting Electricians with installations and wiring on large-scale solar projects

UNI/ Travel Jobs
(Dec/2015 - Aug/2021)
A wide variety of casual work while studying and travelling around in different cities. Including work as a barista, bartender, waiter, furniture removalist, warehousing, fruit picking, cleaning and receptionist.
